

## How to measure

For best results, have someone else take measurements. Measure body in swimsuit or undergarments. Tape must be snug but not tight. If measurements fall between two sizes, order the larger size.

### Chest

Measure under your arms, around the fullest part of your chest.

### Waist

Measure around your waist at the narrowest place.

### Hips

Stand with legs together, measure around the fullest part of your hips, ensuring the tape is level.

### Arm Length

Let your arms hang down on the side in a slightly bent position. Measure from the center of the back of your neck, along the length of your arm, to the wrist.

### Inseam

Without shoes, from crotch to the floor.
